## QUALITY & PATIENT SAFETY

Today, more than ever, Arkansas's hospitals and health systems are engaged in - and dedicated to - the ongoing work of ensuring patients' safety and delivering high-quality care. Providing each patient with the best outcome possible means avoiding preventable harm and delivering precisely the care they need, with an emphasis on the quality of care.

Our state's hospitals have embraced technology that mitigates risk, implemented high-reliability practices, and invested in - and engaged with - strategic quality improvement initiatives. Hospitals now talk about creating "cultures of safety," an ethic that starts with leaders. Between 2014 and 2018, hospitals directly engaged in the American Hospital Association's Hospital Improvement Innovation Network program, or HIIN, saved \$1.2 billion in health care costs, prevented 141,000 harms, and saved 14,000 lives.

#### ARKANSAS PROCUREMENT

- Arkansas Procurement Law gives agencies the discretion to purchase commodities and services that do not exceed the amount set in Ark. Code Ann. § 19-11-204(13)(A)(i), which is currently \$20,000, without the need of formally soliciting bids or posting notice. 1 These are commonly called "small procurements."
- (3) CERTIFIED MINORITY BUSINESS ENTERPRISE OR CERTIFIED WOMEN-OWNED BUSINESS ENTERPRISE. A procurement that does not exceed two (2) times the amount stated in Ark. Code Ann. § 19-11-204 (13) may be procured without seeking competitive bids or competitive sealed bids if the procurement is with a certified minority business enterprise or certified women-owned business enterprise. The certification process is administered by the Division of Minority and Women-owned Business Enterprise of the Arkansas Economic Development Commission.

# ARKANSAS ECONOMIC DEVELOPMENT COMMISSION MINORITY OWNED BUSINESS ENTERPRISE ACT 1080

- The State of Arkansas supports equal opportunity as well as economic development in every sector, ensuring that 15% of the total amount expended in state-funded and state-directed public construction programs and in the purchase of goods and services for the state each fiscal year is paid to minority businesses. The percentage breakdown is as listed below:
- Ten percent (10%) for minority business enterprises with two percent (2%) allocated for service-disabled veteran-owned minority business enterprises; and eight percent (8%) for all other minority business enterprises;
- Any solicitation under \$46,000.00 does not need to be solicitated

#### **SDVOSB ADVANTAGE**

- Congress has shaped a legislative framework providing veterans with a competitive advantage in federal contracting. These advantages include:
- ✓ Federal buyers are able to write contracts sole sourced with no competition.
- Contracts can be up to \$5.5 million for manufacturing and \$3.5 million for goods and services.
- Reduced administrative time results in faster awards and shorter contracting award times.
- ✓ SDVOSB set aside contracts are preferred by many contracting offices.
- ✓ SDVOSB sole source awards significantly reduce contract protests.
